

XACTERP

Taking you forward

Company Overview

XACT ERP Solutions is a medium-sized, digital-first enterprise serving the operational and financial needs of retail, wholesale, distribution, and manufacturing businesses.

Over the last 25 years, we've helped companies embrace agility and digitally transform with our world-class ERP system.

We help businesses grow with innovative, industry-built software, dependable expert advice, and specialised services. We give our clients the confidence and security to take the next step, whether that means expanding into new territories, adding product lines, transforming business processes, or driving innovation.

Our development team are experts in trading and management technology. Combined with a forward-thinking, dynamic approach, we've built long-term relationships with clients who rely on XACT as a trusted partner in their digital journey..

Headquartered in Durban, South Africa, XACT ERP Solutions is dedicated to solving tomorrow's business challenges today—through purpose-built software and superior customer experiences delivered by people who genuinely care.

Why ERP? The Modern Business Challenge

In today's competitive economy, efficiency and agility determine success. Yet many businesses still operate with disconnected systems, spreadsheets, or outdated tools that limit visibility and performance.

#1 Challenge

Disjointed departments and duplicated

#2 Challenge

Poor visibility across supply chains

#3 Challenge

Manual reporting and slow month-end closures

#4 Challenge

Stock inaccuracies and missed sales opportunities

#5 Challenge

Limited scalability as operations grow

Enterprise Resource Planning (ERP) provides the foundation for intelligent, connected business management.

It integrates every function, finance, inventory, sales, production, and operations into a single, unified system for total visibility, accuracy, and control.

Introducing XACT ERP

Complete, Connected, Cloud-Based

XACT ERP is a comprehensive, end-to-end ERP solution designed to manage every aspect of your business, from accounting and supply chain to manufacturing and analytics, in one integrated, cloud-based platform.

Built for flexibility and growth, XACT ERP empowers decision-makers with accurate data and real-time insight while enabling teams to work faster and smarter.

#1 Cloud-based (SaaS)

Secure access anytime, anywhere.

#2 Mobile Warehousing

Control operations on the go.

#3 Integration APIs

Seamless connectivity with third-party platforms.

#4 XACT BI

Built-in business intelligence and dashboards.

#5 Multi-Currency Support

Transact globally with confidence.

Key Features & Modules

#1 Financial Management

Comprehensive control over all accounting functions. Automate journals, reconciliations, and cashflow; manage budgets; and generate real-time financial statements. Multi-company and multi-currency support ensure precise, compliant reporting across entities.

#2 Sales & Order Processing

Track the entire sales cycle, from quotations to invoicing. Manage credit limits, discounts, and commissions while maintaining accurate customer and sales data. Real-time dashboards give you visibility into performance and margins.

#3 Purchasing & Supplier Management

Streamline procurement with automated approval workflows. Manage suppliers, purchase orders, landed costs, and supplier returns, ensuring complete visibility and cost control.

#4 Inventory & Warehouse Management

Achieve total stock control. Track items by batch, serial, or location; manage multiple warehouses; and automate replenishment. The **XACT Mobile Warehouse app** enables scanning, transfers, and dispatch directly from handheld devices.

Key Features & Modules

#5 Manufacturing & Production

Control and optimise your production process. Manage Bills of Materials (BOMs), work orders, and job costing; track materials, wastage, and output with real-time production analytics.

#6 Point of Sale (POS)

Integrate retail transactions seamlessly with back-office operations. XACT POS delivers real-time visibility of stock and sales, ensuring accurate pricing, promotions, and performance tracking across stores.

#7 Debtors & Creditors

Efficiently manage customer and supplier accounts with automated credit control, aging analysis, and statement generation. Gain full visibility into balances, payment terms, and cashflow forecasts.

#8 General Ledger

Maintain a centralised record of all financial activity. Flexible account structures and real-time consolidation simplify audits and month-end closings.

Key Features & Modules

#9 Cash Book

Handle multi-currency receipts, payments, and bank reconciliations in one intuitive interface.
Monitor liquidity and improve accuracy with automated reconciliation features.

#10 Projects & Job Costing

Monitor profitability across projects or contracts.
Allocate materials, labour, and expenses, track milestones, and measure financial performance with precision.

#11 Reporting & Business Intelligence (XACT BI)

XACT BI transforms operational data into real-time insight.
Create visual dashboards, KPIs, and ad hoc reports across departments to make data-driven decisions that improve profitability and performance.

#12 Integration & Extensibility

XACT ERP integrates effortlessly with external applications through robust APIs.
Whether connecting to eCommerce platforms, logistics providers, accounting tools, or external databases, XACT adapts to your ecosystem and scales as you grow.

Industry Focus

XACT ERP is purpose-built for industries where precision, timing, and control are critical.

#1 Wholesale & Distribution #3 Manufacturing

Manage high-volume inventory, purchasing, and logistics with real-time accuracy. Gain full visibility of stock levels, order pipelines, and delivery performance.

Plan and manage production efficiently with real-time tracking of materials, labour, and costs. Improve traceability, reduce waste, and streamline shop-floor control.

#2 Retail & POS

Unify front-of-house and back-office systems for seamless retail operations. Synchronise sales, stock, and pricing across stores, regions, and online platforms.

#4 Trading & Services

Track orders, contracts, and customer accounts with precision. Improve efficiency and profitability with integrated accounting and service management.

Benefits & Proof Points

Implementation & Support

At XACT ERP Solutions, implementation is managed with precision, flexibility, and care. Our structured, proven process ensures that every project achieves rapid adoption and long-term success.

#1 Discovery & Planning

We analyse your operations and define key objectives.

#2 Configuration & Data Migration

Tailored setup and accurate data import.

#3 Training & Onboarding

Role-based training ensures confident users.

#4 Go-Live & Stabilisation

Close collaboration during launch.

#5 Continuous Development

Ongoing enhancements aligned with your growth.

Implementation is delivered both **in-house** and through **certified partners**, ensuring expertise and scalability across industries.

Partners & Alliances

We collaborate with trusted technology and industry partners to deliver integrated, future-ready ERP solutions.

Our alliances extend XACT’s functionality into accounting, logistics, and business analytics—enhancing value and reliability for every client.

What Our Clients Have to Say

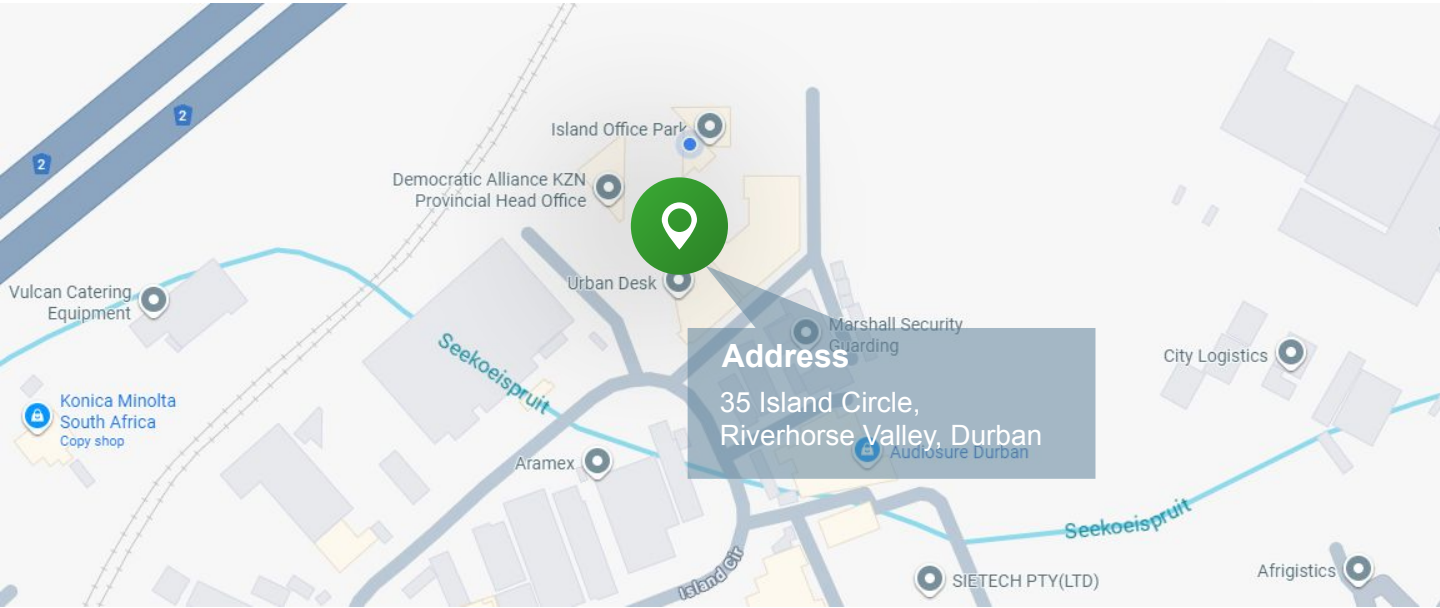

“The system is truly fit for purpose—simple to understand and easy to navigate. Many functions are accessible from one screen, allowing users to drill quickly into underlying transactions. The search functionality is incredibly powerful.”

— Financial Director, National Equipment Supplier

“The XACT ERP system is no doubt the best we have used. It is user-friendly and provides detailed reporting. Their support and development teams are professional, approachable, and always willing to assist with enhancements and custom development.”

— CEO, Leading Battery Distributor
